Personal Website

Key Strengths

Android developer
websites and web applications
User research
Prototype Building
Version Control
Business plan developer

SUMMARY

I am a passionate android and web developer. I love constant interactive learning and sharing ideas. I am a team player and a great project lead.

EXPERIENCE
Workbay.Net
Software Developer March-June 2016

We worked in teams to create and maintain the company's android application which will be used by residents of memphis,canada.
We created the company's api which we used to get information to use in the android application.

Skills
- **Building an Api with laravel**
- **Teamwork and collaboration**
- **Meeting deadlines**

#SmartcitiesNairobi Hackathon,ANGELHACK
Software Developer 29 & 30 April 2016

The hackathon was about using Fabric twitter api to create a digital solution that will improve the nairobi city life. My team focused on the county government officials, we came up with a great idea that will pull data from twitter to advertise county job openings and budget and expenditure, that way reducing unemployment.

Tax justice Hackathon,Oxfam
Developer —February 2 & 3 2016

The hackathon was about tax justice in nairobi, wajir and Turkana counties. My team focused on Turkana market traders, we came up with a solution called E-county, that digitized the tax collection process and got the citizens more involved and aware about the county tax allocation and expenditure.

Accomplishments
- 2nd runners up

Skills
- project management
- team work
- pitch presentation

Barclays Product Lab developer, Barclays Bank
Nairobi, Kenya — 19 october 2015 - 19 january 2016
A 12 weeks program, where barclays bank selects developers that are given a real life problem statement and expected to come up with a working digital solution that will later be implemented .

Accomplishments
- I was able to use user research canvas to do user research on investment clubs
- Based on the user research I managed create prototypes with invision and created an android application that solves their major pain points
- I pitched the idea to barclays staff including CEO,Jeremy Awori

skills
- Project management
- Pitching skills
- Prototyping
- Agile development
- Team work
- Working with business model canvas
